## **Empowering You.**

Midwest Behavioral Health offers a dedicated team of professionals from various backgrounds who have many years of experience working with people just like you. Our goal is to provide high quality mental health services that focus on improving your life through immediate support and long-term wellness. We work with individuals over the lifespan: children, adolescents, and adults of all ages; we also work with couples and families in need of counseling and psychiatry.

### **What to expect?**

Our approach is comprehensive and personalized. We will tailor our mental health services to your specific needs through an initial assessment and diagnosis, followed by skill building, solution focused counseling, and/or medication management to get you feeling better more like yourself again.

### **What do we do?**

We offer counseling and medication management, depending on the needs of the individual. We take extra care to provide a confidential and caring environment where you can feel secure in knowing your privacy matters to us.

### **Who are we?**

Our practice is made up well-trained healthcare professionals with many years of experience and specialization in behavioral health. We include the following types of mental health professionals:

- Licensed Clinical Social Workers
- Licensed Marriage and Family Therapists
- Advanced Practice Registered Nurses
- Psychologists
- Psychiatrists
